Core sources of data include meeting minutes, feedback from participants, and recommendations for next steps in the defections/DDR process.	Marty?

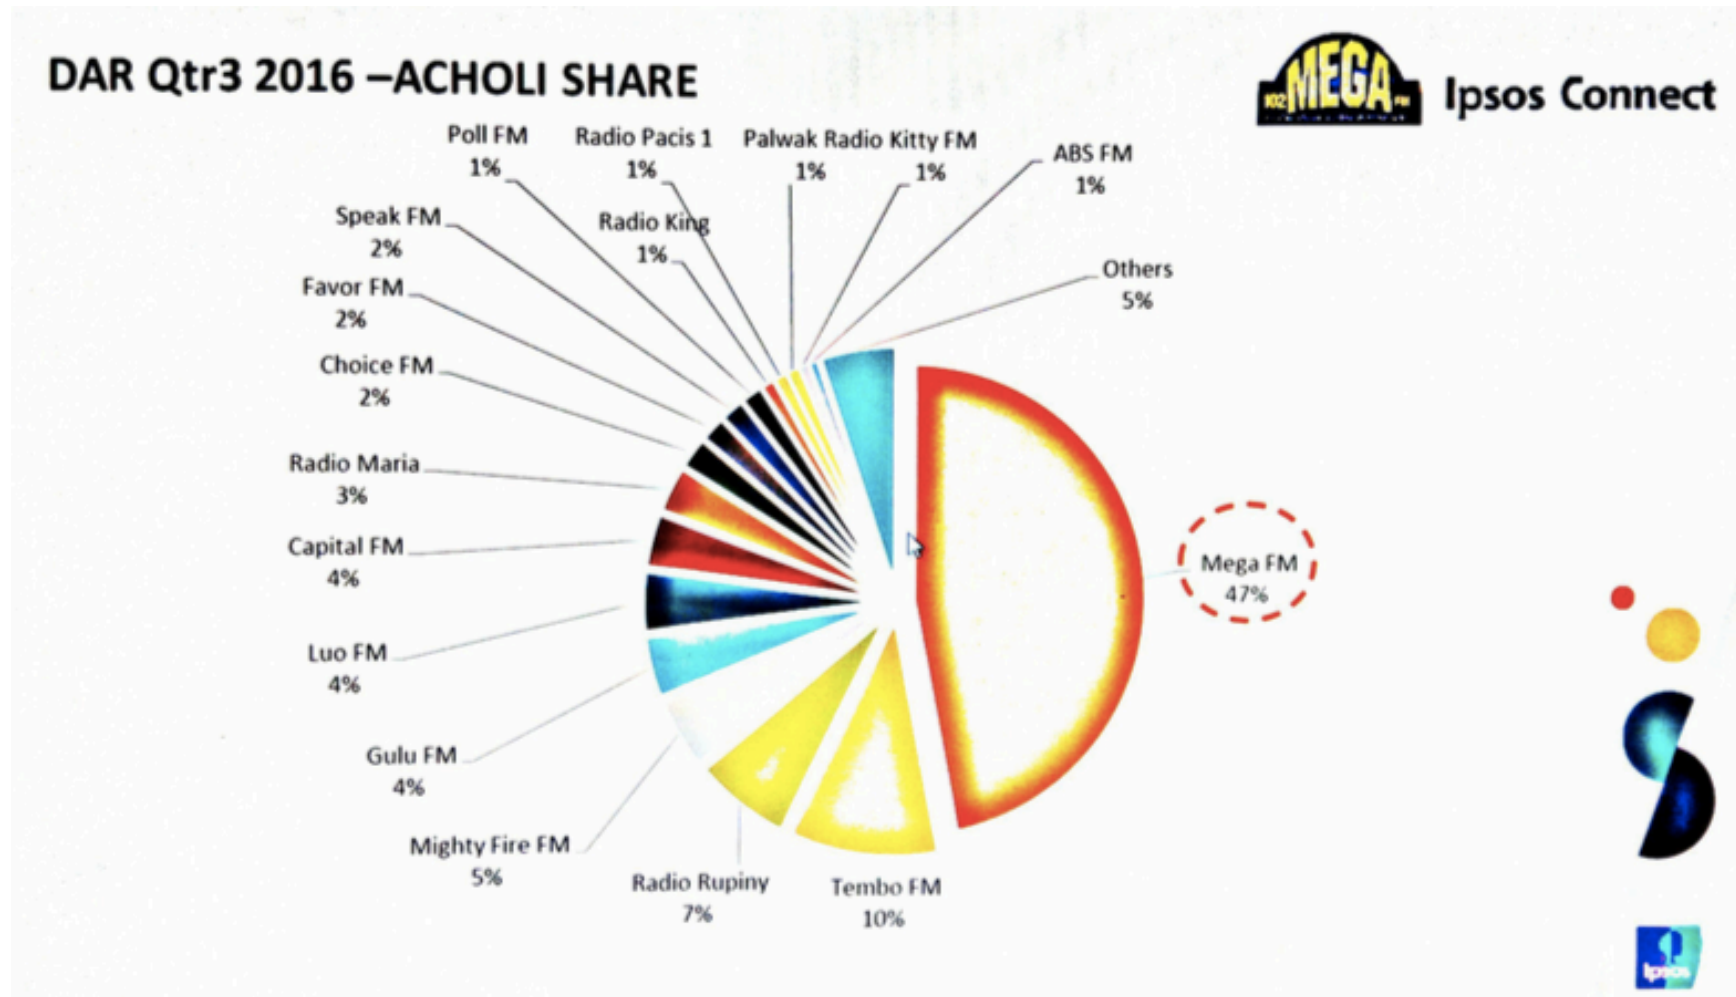

7.4. Sample data set from SMS engagement during the festival (Source IST Research, 2017)

This program is the best so far being organize today. LANEK DENIS LURONI
The Festival Is A Step To Healing Trauma Of The LRA Insurgency In Northern Uganda And Giving Hope To Affected Persons. Emmy
Its a very good program but next time the organizers should conduct a massive mobilization using different available means to attract a larger crowd than today
it's a good festival to determine how much we have achieved after the conflict. Also to encourage us to work together towards transformation of our communities. Thank you
This Programme is so good because it brings to the attention of people from other parts of the world and other districts, how the northerners suffered during the LRA war, the strategies used to bring the war to an end, the way of life of the people after the war and the roles of the govt, NGOS, CBOS and the individuals on recovery process. From Odoch Denis P' Onek.
I JUST THANK GOD FOR THIS PROGRAM IT SHOULD CONTINUE AND REACH ALL THE REGIONS AFFECTED BY THIS WAR, THAT'S MY PRAYER. AND ALL OF US SHOULD WORK HARD TO MAKE THIS PEACE ONE THAT LASTS AND BRING DEVELOPMENT TO ALL THIS REGIONS. THANKS.
this festival is good because it will reduce number of deaths.
The vibrant positive message of reconciliation and absorption of the former abductees into the community so as we live in solidarity as one. Plus the Performances that strongly and brightly portray how to attain and maintain peace.
What Interest Was The Testimonies Given By The Former Abductees Of The LRA.
The picture which was drawn by the children to show what peace means to them.
The most favorite part is that giving the massages of peace to all people from different part of the world who are present s secondly is that the festival a sure return to feel at home to know that they part of us all and also made community to share equally with returnees with no difference.

<p>We Should love the former abducted peoples in our our family and in our community, Uganda and in west Africa</p>
<p>For me what I see that was amazing in this event is bringing the abducted fellows to the communities so that they also feel happy in the community</p>
<p>The most important event was the organizers of the event and also the testimonies given by the people arrested by the LRA. We have to give them support.</p>
<p>The Educative Msg By The Leaders And Entertainment And Refreshment</p>
<p>1 Best integration Prog. 2 It opens +tive attitude in public & encourages Victims to stop pitying themselves but engages in Reconstructing their lives.</p>
<p>I am Orach David councilor LC3 Palabek kal Sub County Lamwo District Local Government I am within with the people of Gulu municipality in this wonderful gathering of transforming the life of our Returnees : Well communication from chairperson LC5 from Amuria District Local Government about unity among Ugandan and avoiding finger pointing to returnees : Next musician with their wonderful messages about restoring peace in Uganda</p>
<p>The messages in the songs presented are speaking to the occasion</p>
<p>T-shirts were not enough.</p>
<p>What I liked, people's quest for peace, what is did not like is that people did not follow time.</p>
<p>I liked the traditional dances and the different messages from the different leaders. The other women who joined the dancers on the stage messed the dances.</p>
<p>This Event Is Really Inspiring, but The Organizing Committee Didn't Inform People Early, I Wish This Could Take Like Two Days, its Giving Us Knowledge, I appreciate the coming of the group from the AMERICAN EMBASSY to Hulu especially disseminating their work to be accessible at local level by the local community, I appreciate the action of the team their work well done, we hope for more assistance thanks.</p>
<p>This event have been able to show what was done in realizing peace plus reintegrating reparation of the survivors n what need to be done in sustaining the peace by success stories n drama</p>

performed by the kids in a group from thrive
The festival clearly showed that we are all equal. We should support each other to promote co existence. I suggest that this festival becomes an annual event. Thank you
I learnt that there is forgiveness and the need to continue doing the same everywhere.
I Have Witnessed People Been Strengthened And Given Hope Of Belonging And So They Were Happy
I like the message about the need to continue forgiving one another. I also request that all the bad things that happened in the past should not be repeated.
what I love most in the even is about our children who drew the pictures showing love and peace which is now back in our society teaching the entire world about peace that we the survivors are now living a wonderful living and what happened on us from the bush stop on us not to our generation so thanks to our brothers and sisters from America and other organization for supporting us childrens from our sufferings because my phone does not support other communication let me stop here I would have g
THE PROGRAMME IS ORGANISED AND I LOVE: MAY GOD BLESS ALL THE PEOPLE AMEN
I Like And Enjoy The Show, it Brings All Our Struggle In To Victory.
We're all happy for attending this programs. THANKS
The program was OK because we got a good information and teaching and on the other side there was no problem as being witness by me.
